Front Loader Washing Machine, 12kg, ActiveIntelligence™, Steam Care

Series 9 | Front Load

This Steam Care front loader has 26 different fabric care cycles, with an excellent B energy rating and A noise rating.

- Refresh, revive and dewrinkle garments using the 20 minute Steam Refresh cycle
- ActiveIntelligence™ removes the guesswork by tailoring detergent dose and adjusting wash times to suit each load
- Save time, minimise noise and reduce water usage with Optimise Wash options
- Select from 26 fabric care cycles using intuitive LCD display

FEATURES & BENEFITS

The pinnacle of fabric care

Easy to use, the LCD display provides a simple interface to select from 26 fabric care cycles; including Quick, Silk, and Wool, to deliver an optimal wash performance.

Refresh, revive, respect

Bring lightly worn clothes, musty stored garments and even soft furnishings back to life with Steam Refresh. The 20 minute cycle removes odours so clothes can be worn again without the need for a full wash cycle, while steam reduces creases to save you precious time spent ironing.

Health and hygiene

Our Hygiene cycles including Allergy and Sanitise provide extra protection for your clothes. The higher wash temperature and an extra rinse cycle is designed to kill more than 99.9% of bacteria and reduce allergens.

ActiveIntelligence™ auto-sensing

Every wash is unique with ActiveIntelligence™ technology. Intelligent sensors determine load size and soil level before dispensing just the right amount of detergent and adjusting the wash time, for over 1200 possible wash combinations. Available on Cotton, Heavy, Everyday, Delicate and Sports cycles.

Less waste with Auto Dose

Prolong the life of your garments with Auto Dose mode. Auto Dose dispenses the exact amount of liquid detergent required based on load size – resulting in less waste, less hassle and less detergent residue, with the added convenience of not needing to fill the dispenser for every wash.

Customise your wash

Shorten your total wash time with our Speed option, or choose Eco to wash more sustainably. The Quiet mode reduces cycle noise, perfect for late night washing without waking the house.

Time saving

When time is short you can select a quick 15 minute wash for freshening up new or lightly soiled garments. In fact, Vortex Wash allows most cycles to take less than one hour to complete. Water is forced from the bottom of the drum, so detergent and heat reach your clothes faster, cleaning quickly and avoiding over-washing.
