FEATURES & BENEFITS

Design quality
Our fridges are designed and built using quality materials. We use real stainless steel on our fridges and solid glass for shelving as well as in our wine cabinet doors.

Complementary design
With their premium handle styling and stainless steel finish, our fridges are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Easy cleaning
No more permanent dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

Simple storage
This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

Humidity control
Your fruit and veges need different environments. The humidity control slides in each storage bin create a perfect microclimate for each, which helps keep them fresher for longer.
