Features & Benefits

**Perfect heat**  
Sealed Dual Flow Burners™ deliver cooktop power up to 20,000 BTU for seriously fast boiling right down to a precise 140°F full surface simmer with the gentlest of flames.

**Cooking flexibility**  
The self-locating grates focus the flame on the base of each pan, where it is most required. They are designed for easy and safe sliding of pans across the cooktop surface. For cooking variety, a wok ring accessory is also available.

**Easy cleaning**  
These cooktops have sealed burners and a single sheet cooking surface which, combined with a commercial-style stainless steel finish and dishwasher-safe grates, allow easy cleaning.

**Information at a glance**  
LED halo control dials provide information at a glance and assist in alerting you if any burners are accidentally left on.

**Precise control**  
From the highest to the lowest temperatures you get total control with halo-illuminated cooktop dials. A precise full surface simmer is delivered across all burners.

**Designed to match**  
Built to last with distinctive, bold styling, this cooktop is designed to match the Fisher & Paykel Professional style family of appliances.
