Height	16 1/4"
Width	28 3/4"

Features & Benefits

The perfect fit
With no sharp edges, visible screws or other visual distractions, this flush mounted range hood is designed to match most cooktops. Two depths are available to fit your cabinetry styling.

Full surface extraction
Filters effectively reach edge to edge, which maximises the amount of extraction area.

Intuitive controls
This easy to use range hood operates with fingertip control of LED-illuminated soft touch buttons. Selected models also come with a remote control.

Easy to clean
The stainless steel filters are easy to remove and are dishwasher safe. A self-contained grease tray within the filters makes them very easy to clean.

LED lights and dimmers
The even lighting provides full coverage of the cooktop, illuminating food in its true color, with no hot or dark spots and no glare or shadows. The dimmable lights have fade in and fade out features.

Easy installation
The simple installation process is compatible with most pre-cut cabinetry. The adjustable mounting system can be installed with 5/8" to 9/16" cabinetry board.
