CONTROLS AND DISPLAY

To Delay start
- Press and hold until appears on the display, then release. You are now in Delay start mode.
- Press until the display shows the number of hours you want to delay the start of a wash by (1 to 12 hours).
- Note: If you scroll past 12 hours the dishwasher will exit Delay start mode. To re-enter delay start follow step 1 above.
- The wash will start once the delay time is over, provided the drawer is closed.

DD24 models only
- If the drawer is opened after delay start has been set (for example if you need to load more dishes), delay start will be paused after the drawer is closed.
- To re-start delay start:
  - Single models: will flash.
  - Double models: and will flash.

Press to resume.

Cancel wash/Cancel Delay start
- Press to cancel a wash that has already started or to cancel the Delay start setting.
- If there is any water in the drawer, it will automatically drain before the dishwasher turns off.

E Keylock
- Keylock disables all the buttons - helpful when cleaning the dishwasher.
- Single models: will flash.
- Double models: and will flash.

Press to resume.

Fault code numbers
- (see ‘If there is a fault’ in User guide).

Wash stage indicators
- If lit: keylock or childlock is activated.
- If lit: delayed start is set.
- (Water softener models only) If lit: salt reservoir is empty.

Select wash
- Power the dishwasher on.
- Then select wash program.

Start wash or set Delay start
- Ensure drawer is closed.
- To start wash: Press until you hear one tone. The keylock indicator will come on.
- To cancel; press and hold until you hear another tone and the keylock indicator stops flashing and goes out.
- Double models to activate: press and hold and together until you hear another tone and the keylock indicator stops flashing and goes out.

For detailed information on the features of your dishwasher, see your ‘User guide’.

Keep this document handy for easy reference.

Note: If you scroll past 12 hours the dishwasher will exit Delay start mode. To re-enter delay start follow step 1 above.

For contact information or if you require service, assistance or replacement parts, see the end of this document or your ‘Service & warranty’ booklet.

Operated independently of the other drawer.

For contact information or if you require service, assistance or replacement parts, see the end of this document or your ‘Service & warranty’ booklet.

These show which program is selected.

- White: drawer is running and selected.
- Dim: drawer is running but not selected. Flashing: drawer is paused.
**DURING AND AFTER THE WASH**

As the wash progresses, the display will count down the minutes remaining and show what stage the program is at. When the program has finished, the display will show 0 and the dishwasher will sound a tone. After 30 seconds the display will go out.

You may notice the following noises at the end of the wash. These are all part of normal operation:

- Both drawers may be draining simultaneously.
- The drying fan may continue to run after a wash program has finished for a set time or until the drawer is opened. The fan assists with drying and uses negligible amounts of energy.

For best drying results, we recommend unloading the dishes once they have cooled.

**DOS AND DON’TS OF LOADING**

- Sharp or pointed items must be placed horizontally or with sharp edges/points facing down to avoid risk of injury.
- A neatly arranged load with evenly spaced dishes helps wash performance.
- Ensure there is enough space between plates. Mix spoons, knives and forks within the cutlery basket to prevent them from nesting.
- Dishware is blocking water from reaching items on the racks.
- If plates and cutlery are nesting, they are less likely to be cleaned well.
- Overcrowding reduces wash performance.

**PREFERENCE OPTIONS**

You can change the setting of these options to suit your preferences or circumstances. We recommend selecting the most suitable settings before you start using your dishwasher.

**OPTION** | **RING AID** | **WATER SOFTENER** | **OPEN DRAWER AUTO POWER-ON** | **TUNES AT END OF WASH** | **CLOSED DRAWER AUTOLOCK**
---|---|---|---|---|---
**What does it do?** | Regulates the amount of rinse aid dispensed. Reduce this setting if there is excess foam after a wash. Increase this setting if dishes are wet or streaky after a wash. | Refer to the ‘Water softener’ section of the ‘User guide’ for details. | Your dishwasher is factory-set to automatically power on for 30 seconds whenever you open the drawer. You can turn this setting off. | This turns all tones off except for fault alerts. | When this setting is on, the drawer will automatically lock 30 seconds after it’s closed. It can then be unlocked by pressing (unless Keylock or Childlock is also activated). Useful in boats or motor homes.

**How to change the setting of an option**

1. **CHECK**
   Check that there is no wash underway, press 

2. **ENTER MENU & SCROLL TO OPTION**
   To enter the menu: Press and hold the and together for four seconds.
   - You are now in the Rinse aid option of the preference options menu.
   - If you want to change the Rinse aid setting, go to step 3 now.
   - If you want to change the setting of another option, you will need to scroll to that option first.

   To scroll to the next option: press . To know which option you’re in, watch the letters in the display (see table below).

3. **CHANGE SETTING**
   Press to change the setting within an option. For example, to change the Rinse aid setting from 4 (factory default) to 2, you need to press 3 times.

4. **SAVE SETTING & QUIT MENU**
   Press . This will save the new setting and quit the preference options menu.
