

Induction Cooktop, 30cm, 2 Zones

Series 5 | Contemporary

Black Glass

- When you have a little space but a lot to do. With the instant response and cool-to-touch safety of induction technology.
- Child and pet safe – cooktop remains cool to touch until a pot or pan is placed on the surface
 - PowerBoost activates a very high heat, bringing liquid to boil in less than a minute
 - Touch&Slide controls easily control each cook zone

DIMENSIONS

Height	57mm
Width	300mm
Depth	530mm

FEATURES & BENEFITS

- Instant response**
Go from a boil to a simmer in seconds. Fisher & Paykel TouchandSlide controls react immediately when you adjust the temperature, so you don't waste time in the kitchen.
- Safer choice**
Induction cooktops only start heating your pot or pan once you've placed it on the ceramic surface and stop as soon as you remove it – so you don't have to worry about curious little fingers or leaving an element on.

- Easy Cleaning**
The surface around your cookware stays cool when you cook, preventing baked-on spills and making cleaning up a breeze. The durable ceramic cooktop surface just needs a quick wipe after use to maintain its good looks.
- Enhanced Features**
PowerBoost and GentleHeat deliver either very high or very low heat fast for specialised cooking tasks such as searing meat and melting chocolate. An integrated timer keeps you on track.
- Superior efficiency**
Less heat is wasted during induction cooking because only the cookware is heated, not the cooktop surface. This makes induction cooking more energy-efficient than electric or gas cooktops.
- Precise Control**
Fisher & Paykel induction cooktops offer extremely accurate, consistent temperature control from very high to very low heats, so you can sear, sauté and temper like a pro.

SPECIFICATIONS

Cleaning	
Flat easy clean glass surface	•
Controls	
Auto cut-off timer for each	•
Minute timer	•
Soft-touch electronic controls	•
Performance	
Heat settings	9
Induction cooking technology	•

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
