- Moisture level control with ActiveVent™ technology
- Pyrolytic self-cleaning function breaks down food residue for an easy clean

DIMENSIONS

Height	598 mm
Width	596 mm
Depth	565 mm

FEATURES & BENEFITS

Cook with confidence

Our touchscreen interface provides an intuitive guided cooking experience that helps deliver perfect results, whether you've been cooking all your life or just starting out. Cook with a favourite method, a hero ingredient, or a go-to cooking function or recipe.

Generous capacity

With a generous 85L total capacity, you can create several perfectly cooked dishes at once using multiple shelves.

Exceptional performance

Our unique cooking technologies were developed to deliver perfect results. ActiveVent™ ensures optimised moisture levels, while AeroTech circulates heat evenly for a consistent temperature.

Multi-function flexibility

The cooking functions have each been tailored, tested, tweaked and perfected to ensure that no matter what you're cooking, you've got the right heat to match. A food probe precisely monitors cooking in real time, giving you complete control.

Self-cleaning

Our pyrolytic self-cleaning technology breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. The enamel coated side racks don't need to be removed when using this function.

Design freedom

Available in an elegant black or a stylish black with stainless steel, this oven is designed to fit seamlessly into your kitchen. Premium materials and detailing support a cohesive, considered kitchen design.
