| Height | 1790mm |
| Width | 790mm |
| Depth | 692mm |

FEATURES & BENEFITS

ActiveSmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It's technology which understands how you use your refrigerator and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

Clever Energy

With an exceptional 5 star energy rating, this refrigerator adapts to daily use by cooling and defrosting only when necessary. This means it uses the energy it needs without compromising on food care.

Slimline Design

With a sleek, slimline design and recessed handles, this quad door refrigerator is perfect for compact kitchens. Choose from natural stainless steel or elegant black stainless steel to suit your kitchen aesthetic.

HUMIDITY CONTROL

The humidity bin in this refrigerator is designed to help extend the freshness of your produce. It creates a unique microclimate within the bin, compared to the main refrigerator compartment, ensuring your fruits and vegetables stay fresher for longer.

Design Quality

Our refrigerators are designed and built using robust, quality materials, with stainless steel exteriors and solid glass for the interior shelving.

SIMPLE STORAGE

This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions.

Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates

carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
