

30" Series 7 Professional 4 Burner Gas Range, LPG

Professional

Professional style and performance, with powerful burners delivering high heat or the most gentle simmer.

- Top burner heat of 19,000 BTU, for seriously fast boiling
- Convection oven with 4.6 cu ft total capacity
- Non-tip full-extension shelves for safe removal of hot dishes

DIMENSIONS

Height	35 3/4 - 36 3/4 "
Width	29 7/8 "

Depth

29 1/8 "

FEATURES & BENEFITS

- Cooktop Power**

Sealed Dual Flow Burners™ deliver cooktop power up to 22,500 BTU (NG models) for seriously fast boiling right down to a precise 140°F full surface simmer with the gentlest of flames.
- Total Control**

Precise control across high and low settings is delivered through the halo-illuminated cooktop dials. The ovens have true convection and electronic oven control for precise and consistent temperatures.
- Easy To Clean**

A sealed cooktop surface coupled with a commercial-style stainless steel finish means your cooktop simply needs a quick wipe to keep it looking good as new.
- Instant Visibility**

- Control dials have halo-illumination glowing white – heating up; orange – temperature reached; red – self-cleaning mode. The oven is illuminated by two powerful incandescent lights.
- Cooking Flexibility**
- The cooktop is designed for easy access to any burner with grates you can smoothly slide pots across. The oven is large enough to hold full size baking sheets.
- Design Quality**
- This range has been carefully crafted in every detail from performance to durability using quality materials.
- SPECIFICATIONS**
- Accessories (sold separately)**

Square handle option	AH-R30
Wok grate included	Yes
- Burner ratings**

Maximum burner power	19000 BTU
Power back left	13000BTU
Power back right	13000BTU
Power front left	19000BTU
Power front right	15000BTU
Total cooktop power	60000 BTU

Infrared Broiler	•	Combustible situation		Where applicable:	
		Minimum CFM		All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.	
Oven functions		Non combustible situation		Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
