

Series 9 Integrated Tall Single DishDrawer Dishwasher

Integrated

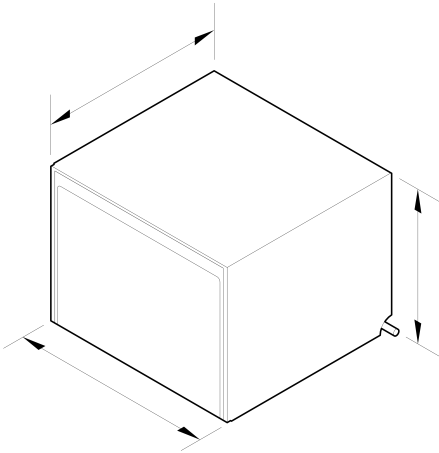

Introducing the next evolution of DishDrawer™ Dishwasher design. The Integrated Single Tall DishDrawer™ Dishwasher delivers advanced performance and quiet efficiency, with extra height to fit larger plates and cookware. Designed to integrate seamlessly within your kitchen cabinetry, it combines intuitive touch controls with a step up in energy and water efficiency for everyday living.

- Panel-ready design allows seamless integration with your kitchen cabinetry, or pair with a stainless steel door panel
- Capacitive touch controls, refined styling and SmartHQ™ connectivity bring intuitive convenience to everyday dish care
- Designed for true half-load washing, with flexible racking that fits larger plates up to 310mm in diameter

- Versatile wash cycles and modifiers ensure clean results, while fan-assisted drying helps leave dishes ready to use

DIMENSIONS

Height	454 mm

Performance				Where applicable: All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region. Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
Noise emissions	43 dBA			
Power requirements		SKU	85769	
Dedicated Circuit (A)	10A			
Supply frequency	50 Hz			
Voltage	220 - 240V
