

Series 5, Integrated Dishwasher

Integrated

Offering a superior wash performance, this Dishwasher is panel ready and designed to be integrated into your kitchen for a seamless look.

- Customize with your own front panel and handle to match your kitchen cabinetry
- Seven wash programs to suit any load, from Delicate to Heavy
- Quick, Sanitize and Extra Dry provide extra wash options
- Flexible racking allows you to customise internal shelves to suit your needs

DIMENSIONS

Height	32 5/16 - 36 1/2 "
Width	23 3/4 "
Depth	22 3/4 "

FEATURES & BENEFITS

- Sized To Suit**
Install this fully integrated dishwasher to tall (American size) or short (Euro/ADA size) counter heights, ensuring minimal gaps. Customize with a front panel to match kitchen cabinetry.
- A Quality Wash**
This dishwasher offers seven wash programs including Auto, which automatically senses the optimal wash cycle for your dishes. The three stage filtration system delivers a superior clean, while the rinse aid indicator reminds you to top up for squeaky-clean dishes.
- Flexible Stacking**

Designed to fit 14 place settings, the flexible, adjustable storage lets you stack even large items with ease - featuring a full width cutlery tray, height adjustable middle rack, cup holders and wine glass supports.

Quick, Sanitize And Extra Dry Options
A Quick wash modifier results in a faster clean, while maintaining wash performance. The Sanitize option provides extra protection killing 99.9% of bacteria in the final rinse. The Extra Dry setting is perfect for plastic dishes.

Quiet And Reliable
Running at a very low decibel rating, this dishwasher does its job without making a fuss. The combination of clever technology and simple mechanics means greater reliability and superior wash performance.

Efficient Performance
This dishwasher is very efficient in its use of water and energy, while delivering a powerful wash that ensures optimal results.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
