

Induction Hob, 60cm, 4 Zones

Series 5 | Contemporary

Black Glass

- Great for compact kitchens. Enjoy the instant-response hob, energy efficiency and cool-to-touch safety.
- Instant response and precise control with Touch&Slide
 - PowerBoost and GentleHeat deliver both very high or very low heat for specialised cooking
 - Easy to clean, durable ceramic glass cooktop
 - Enjoy safer cooking with a keylock function, safety time out, surface hot indicators, and spillage auto off

DIMENSIONS

Height	61mm
Width	600mm
Depth	530mm

FEATURES & BENEFITS

- Instant Response**
Go from a boil to a simmer in seconds. Fisher & Paykel Touch&Slide controls react immediately when you adjust the temperature so you don't waste time in the kitchen.
- Safer choice**
Induction hobs only start heating your pot or pan once you've placed it on the ceramic surface and stop as soon as you remove it - so you don't have to worry about curious little fingers or leaving an element on.
- Easy Cleaning**
The surface around your cookware stays cool when you cook, preventing baked-on spills and making cleaning up a breeze. The

durable ceramic hob surface just needs a quick wipe after use to maintain its good looks.

Enhanced Features
PowerBoost and GentleHeat deliver either very high or very low heat fast for specialised cooking tasks such as searing meat and melting chocolate. An integrated timer keeps you on track.

Superior efficiency
No heat is wasted during induction cooking because only the cookware is heated, not the hob surface. This makes induction cooking more energy-efficient than electric or gas hobs.

Precise Control
Fisher & Paykel induction hobs offer extremely accurate, consistent temperature control from very high to very low heats, so you can sear, sauté and temper like a pro.

HIGH-HEAT SEARING
Fisher & Paykel induction hobs quickly reach high temperatures, ideal for cooking steak. Cast iron pans are the best choice as they are highly inductive and get really hot, for perfect searing.

SPECIFICATIONS

Cleaning	
Flat easy clean glass surface	•
Controls	
Auto cut-off timer for each	•
Minute timer	•

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
