

60cm Series 9 Integrated Tall Warming Drawer

Integrated

This panel-ready Warming Drawer keeps food and plates warm, with additional functions like Rapid Proof and Dehydrate.

- Push-to-open drawer with room for up to 16 standard-sized place settings
- Simple and intuitive touch controls for effortless operation
- Automatic switch-off and delayed start to keep dishes warm until it is time to serve
- Designed to integrate seamlessly with cabinetry, for the ultimate kitchen solution

DIMENSIONS

Height	290 mm
Width	596 mm
Depth	566 mm

FEATURES & BENEFITS

MULTI-FUNCTION FLEXIBILITY

With space for up to 16 place settings or 20 cappuccino cups, our warming drawer is the ideal kitchen companion. Choose from six tailored functions, including Rapid Proof for dough, Dehydrate for drying foods, and Slow Cook for tender, flavorful meals.

PRECISE CONTROL

With gentle, even heating, our warming drawer is perfect for keeping dishes warm or gently cooking at low temperatures. Maintain the ideal serving temperature for every course, from delicate entrées to desserts, or use it to slowly develop rich, tender textures in your favourite recipes.

SAFE AND SOUND

With automatic switch-off and delayed start functionality, our warming drawers help keep dishes warm until you are ready to serve.

EASY TO CLEAN

Cleaning and care of the warming drawer is simple. After each use, just wipe out the smooth glass base with a damp cloth.

DESIGNED TO MATCH

Designed to blend seamlessly into any space, this Warming Drawer features a panel-ready finish. Able to be built in almost anywhere, our companion products are crafted to align beautifully and install at the height that best suits your kitchen and lifestyle.

INSTALL ANYWHERE

This panel-ready Warming Drawer can be installed beyond the kitchen, perfect to create the luxury of warm towels in your bathroom or dressing area.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.
