- Nine oven functions including Pastry Bake, Roast and Fan Forced
- With AeroTech™ technology for even heating

DIMENSIONS

Height	478 mm
Width	895 mm

Depth 564 mm

FEATURES & BENEFITS

- Cooking flexibility**
This built-in oven has nine functions with pre-set temperatures, including Bake, Pastry Bake, and Fan Forced, allowing you to use a variety of cooking styles.
- Optimal Performance**
Oven functions are pre-set with a simple touch of a dial. Enhanced by brilliant lighting and a large viewing window, the need to open the oven door is minimised, ensuring perfect cooking results while maintaining the oven's internal temperature.
- Generous Capacity**
Designed for multi-shelf cooking, this built-in oven provides a 100L total capacity. The wide cavity allows for both side-by-side and multi-shelf cooking.
- Safe and Sound**

- The CoolTouch door with triple glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry.
- Complementary design**
With their premium handle styling and stylish stainless steel finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Product dimensions

- Depth 564 mm
- Height 478 mm
- Width 895 mm

Safety

- Balanced oven door

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
