Series 5, Contemporary Built-under Dishwasher

Series 5 | Contemporary

Stainless Steel

Offering a superior wash performance, this Dishwasher is designed to fit flush under your benchtop for a seamless look.

- Designed to be built under your benchtop, fitting flush with cabinetry for a seamless look
- Six wash programs to suit any load, from Heavy to Rinse
- Flexible racking system allows you to stack large items with ease
- Auto option senses the optimum wash cycle for your dishes

DIMENSIONS

Height	820 - 880 mm
Width	598 mm
Depth	570 mm

FEATURES & BENEFITS

Seamless Design

Install this dishwasher flush under your benchtop with the option of a custom kickstrip, ensuring minimal gaps. Designed to match our companion products for a seamless finish in your kitchen.

A Quality Wash

A three stage filtration system delivers a superior clean, while the rinse aid indicator reminds you to top up for squeaky-clean dishes.

Efficient Drying

ThermoDry technology removes moisture from the final hot rinse using natural condensation.

Flexible Wash Options

This dishwasher offers six wash programs including Auto, which automatically senses the optimal wash cycle for your dishes.

Efficient Performance

This dishwasher delivers a powerful wash that ensures optimal results, with a 3.5 star energy rating and a 5 star water rating. Use the Delay Start option for up to 12 hours.

Easy To Load

Designed to fit 15 place settings, the flexible, adjustable racking lets you stack large items with ease. Cup racks, wine glass supports and a cutlery basket allows for safe and easy cleaning of everyday items.

SPECIFICATIONS

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
