 - Spacious bottom freezer with full extension drawer gives easy access to frozen goods.
 - Door water dispenser and internal ice maker

DIMENSIONS

Height	1790mm
Width	900mm
Depth	695mm

FEATURES & BENEFITS

- ActiveSmart™ Foodcare**
ActiveSmart™ Foodcare learns how you live. It's the technology that understands how you use your refrigerator and adjusts the temperature, airflow and humidity inside to help keep food fresher for longer.
- Clever energy**
Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

Easy To Clean
No more dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any finger marks. Spill-safe secure glass shelves easily capture any drips or leaks.

Humidity Control
Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

Design quality
Our refrigerators are designed and built using the best quality materials. We use real stainless steel, and solid glass for the interior shelving.

Ice maker
Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or, during busy times, boost ice production by up to 30%.

Simple storage
This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

SPECIFICATIONS

Accessories (sold separately)

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in

making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
