

# Freestanding Range Cooker, Induction, 90cm, 5 Zones with SmartZone, Self-cleaning

Series 9 | Classic

Black

- Classic styling with a large capacity oven, this is the perfect choice for those who love to cook.
- Five cooking zones that can be paired to form SmartZones
  - Convection oven with 140L total capacity, and nine functions plus Rotisserie
  - Non-tip full-extension shelves for safe removal of hot dishes
  - High-temperature self-cleaning oven cycle breaks down food residue for an easy clean

## DIMENSIONS

Height	898 - 946mm
Width	897mm
Depth	600mm

## FEATURES & BENEFITS

- Multi-Shelf Cooking**  
Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the top shelf turn out just as perfectly as food cooking on the bottom shelf.
- Quality And Durability**  
Every detail has been carefully crafted. The solid, perfectly balanced soft-close door, durable hob and glowing halo dials all add up to an exceptional, premium range.
- Power & Control**  
Instant and immediate control from the highest to the gentlest heat. The finely tuned hob controls let you sear, stir fry or simmer a delicate sauce to perfection.

- Easy To Clean**  
Cleaning up spills is effortless. Your cooktop simply needs a quick wipe to keep it looking good as new. The pyrolytic self-clean oven cycle breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

- COMPLEMENTARY DESIGN**  
Combining traditional aesthetics and modern performance, this Classic style freestanding range cooker is the perfect centrepiece for your unique kitchen design.

- Large capacity oven**  
The generous 140L total capacity oven gives you plenty of space

to cook multiple dishes at once.

- Multi-Function Flexibility**  
No matter what you are cooking, you have the right heat to match thanks to nine oven functions plus Rotisserie, including Pastry Bake with Pizza Mode and Rapid Proof for making bread.

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
