

Series 7 Contemporary Single DishDrawer Dishwasher

Contemporary

Introducing the next evolution of DishDrawer™ Dishwasher design. The Single DishDrawer™ Dishwasher delivers advanced performance, quiet efficiency and true half-load convenience. Designed to give you the freedom to shape your kitchen around the way you cook and connect, it features new wash technology that brings a step up in energy and water efficiency.

- Perfect for compact kitchens, with a small footprint that's quick to fill and easy to load
- Adaptable racking and versatile wash cycles provide flexibility, with fan-assisted drying for clean, dry dishes
- Holds a true half load, ideal for quick turnaround of dishes with convenient bench-height access

- Monitor energy use, receive notifications, and control your dishwasher remotely with SmartHQ™ app

DIMENSIONS

Height	410 mm
Width	599 mm

[↓](#) Planning Guide (English)

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
