

# Series 9, Integrated Tall Single DishDrawer Dishwasher

Integrated

Integrating into your kitchen design seamlessly, with extra height for larger dishes in the tall top drawer.

- Knock to pause function is perfect if you miss a dish
- With extra height for taller dishes, and customisable internal shelving
- Six wash programs, as well as additional Quick wash, Sanitise and Extra Dry options
- Customise with your own front panel and handle to match your kitchen cabinetry

## DIMENSIONS

|        |        |
|--------|--------|
| Height | 454 mm |
| Width  | 599 mm |
| Depth  | 553 mm |

## FEATURES & BENEFITS

- Ease Of Use**  
DishDrawer™ Dishwashers are as easy to open and close as kitchen drawers and can be conveniently positioned at bench height for ease of loading and minimal bending.
- Quick, Sanitise and Extra Dry options**  
The Quick wash modifier delivers a faster wash while maintaining performance. The Sanitise option provides extra protection, killing 99.9% of bacteria\* in the final rinse. The Extra Dry setting is perfect for plastic dishes. \*Certified to NSF/ANSI Standard 184
- Knock to pause**

Instead of needing a remote control, these DishDrawer™ Dishwashers have a knock to pause function. A knock on the front panel will pause the dishwasher which can be re-started again by using the start/play button.

**Quiet Performer**  
Running at a very low decibel rate, these DishDrawer™ Dishwashers do their job without making a fuss. The combination of intelligent technology and simple mechanics means greater reliability and excellent wash performance.

## SPECIFICATIONS

|                                  |   |
|----------------------------------|---|

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
