FEATURES & BENEFITS

- Powerful and quiet**
Odours can linger in the kitchen well after cooking is finished. This rangehood has a powerful motor with three fan speeds to ensure steam and odours are quickly removed.
- Easy to use**
The intuitive control panel responds to the touch of your finger. Low-power LED lighting keeps energy usage to a minimum while providing superb illumination over the entire cooking surface.
- Easy cleaning**
Two filters effectively trap grease particles during extraction. They are easy to remove and dishwasher safe, or can be cleaned by hand in hot soapy water.
- Designed to match**
This wall chimney rangehood's sleek stainless steel finish which will complement any contemporary kitchen and is designed to match the rest of Fisher & Paykel's kitchen appliance family.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
