**FEATURES & BENEFITS**

**ActiveSmart™ Foodcare**
ActiveSmart™ Foodcare learns how you live. It's technology which understands how you use your fridge and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

**Design quality**
Our refrigerators are designed and built using quality materials. We use real stainless steel on our refrigerators and solid glass for shelving.

**Water on tap**
The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn’t take up any storage space in your refrigerator.

**Clever energy**
Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

**Ice maker**
Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

**Humidity control**
Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

**Easy cleaning**
No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.
