

# 30cm Series 7 2 Zone Induction Cooktop, SmartZone

Minimal

Featuring powerful induction technology and a flexible SmartZone, this cooktop offers versatile performance for every occasion. Use the zones separately or link them for larger cookware, from melting chocolate to searing with precision.

- Finished in sleek black glass with durable detailing for a refined kitchen look
- Immediate heat response with precise temperature control for perfect results
- Pause and Recall let you resume cooking with your settings restored

- Touch&Slide controls make it easy to adjust each zone or link zones into a large SmartZone

## DIMENSIONS

|        |        |
|--------|--------|
| Height | 54 mm  |
| Width  | 300 mm |
| Depth  | 530 mm |

## FEATURES & BENEFITS

### Complementary design

Finished in subtle black glass with durable detailing, this cooktop complements your kitchen and pairs beautifully with Fisher & Paykel ovens for a cohesive look. Install flush for seamless flow, or raised to create a focal point.

### Flexible cooking area

This cooktop has two cooking zones, including a SmartZone that links them to work as one. Enjoy the versatility to use wide pans or griddles, and easily cook larger dishes such as a whole fish or pancakes.

### Instant response

Go from boil to simmer in seconds for precise, effortless cooking. Touch&Slide controls respond instantly to your adjustments, helping you stay in control and save time in the kitchen.

### Fast heat, consistent results

Enjoy the instant responsiveness of induction cooking, from quick temperature changes to frying crispy chicken or searing steak. PowerBoost delivers intense heat in seconds, while precise control ensures consistent results across every cooking technique.

### Enhanced features

Gentle Heat functions deliver low, consistent warmth for precision cooking. Perfect for melting chocolate, creating delicate sauces, gently poaching fish, or keeping dishes warm without overcooking.

### Superior efficiency

Less heat is wasted during induction cooking because only the cookware is heated, not the cooktop surface. This makes induction cooking more energy-efficient than electric or gas cooktops.

### Effortless control

Pause and Recall functions give you complete control. Pause cooking for up to 10 minutes, then resume with a tap as heating is temporarily stopped. If the cooktop is turned off, Recall instantly restores your settings so you can continue cooking without interruption.

## SPECIFICATIONS

### Cleaning

- Easy clean cooktop design

### Controls

- Minute timer
- Touch and slide controls

### Performance

- Gentle Heat
- Heat settings **9**
- Induction cooking technology
- Pause function

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

**Power requirements**

|                  |                  |
|------------------|------------------|
| Maximum power    | <b>3.7 kW</b>    |
| Service          | <b>20A</b>       |
| Supply frequency | <b>50 Hz</b>     |
| Supply voltage   | <b>220-240 V</b> |

SKU **85721**

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. © Fisher & Paykel Appliances Ltd 2020

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
