- Six oven functions including Pizza Bake
- With AeroTech™ technology for even heating
- Designed to match the Contemporary style family of appliances

DIMENSIONS

Height	598mm
Width	597mm
Depth	565mm

FEATURES & BENEFITS

Multi-Function Flexibility

Each function has been perfected to ensure that no matter what you're cooking, you've got the right heat to match. This built-in oven has six functions including Bake, Fan Bake and Pizza Bake, allowing you to use a variety of cooking styles.

Generous capacity

With a generous 85L total capacity, you can create several perfectly cooked dishes at once using multiple shelves.

Even heating

Ideal for multi-shelf cooking, this built-in oven features AeroTech - a technology that circulates heat evenly.

Easy To Clean

Cleaning this oven is quick and easy thanks to the optional catalytic liners which absorb oil and fat splashes during cooking.

Design Freedom

Designed to fit seamlessly into your kitchen, this built-in oven features premium materials and detailing to support a cohesive, considered kitchen design.

Safe and sound

The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside - protecting both your hands and the surrounding cabinetry.

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
