

61cm Series 11 Integrated Column Refrigerator

Integrated

<p>Install it separately or pair with another Column for seamless kitchen integration - this model is left hinge with stainless steel interior.*</p>

- Customise with your own kitchen cabinetry or purchase our stainless steel door panel accessory
- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature
- Two separate Variable Temperature Zones. Choose from Fridge, Pantry or Chill
- Internal water dispenser for convenient access to fresh, chilled water

DIMENSIONS

Height	2134 mm
Width	603 mm
Depth	610 mm

FEATURES & BENEFITS

- Variable Temperature Zones**
When it comes to optimal food preservation, one temperature does not fit all. Create the perfect climate for different food and drink types using Variable Temperature Zones. Change a compartment to Fridge, Pantry or Chill Mode for maximum everyday convenience, or change modes for additional capacity when you need it.
- Pantry Mode**
Not everything benefits from cold storage. Pantry Mode (11 to 13°C) is the perfect climate to store foods that benefit from a cool, dark place, including bread, many types of fruit, bananas, avocados, tomatoes, nuts, grains and cereals.

Internal Water Dispenser
This integrated model features a slimline water dispenser, located on the inside for an uninterrupted exterior. The flush-fit design of the water dispenser maximises internal storage space, allowing the shelves to be adjusted to suit your needs. Enjoy a continuous flow of temperature-controlled chilled water to fill almost any size or shape of vessel.

Mix & Match
Integrated Column Refrigeration gives you the freedom to mix and match refrigerators and freezers based on your needs – or install separately. They can be customised with your kitchen cabinetry for a seamless look, or finished with one of our stainless steel door panels.

Clever Energy
ActiveSmart™ makes your refrigerator more energy efficient – adapting to daily use and cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

- Appealing Illumination**
Bright LEDs light up the ceiling, shelves, bins and trays in both refrigerator and freezer, creating a welcoming glow in your kitchen at night and using less power than comparable halogen lights.
- Design Quality**
The premium design and quality finish includes a white or stainless steel interior lining, as well as full-extension metal shelf runners for easy access and robust glass shelving.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
