

30" Series 9 Contemporary Self-Cleaning Oven

Contemporary

With contemporary styling, advanced cook functions and touchscreen, this large capacity oven is a highlight of our collection

- Guided cooking using your touchscreen makes it simple to cook by food, function or recipe.
- 4.1 cu ft total capacity, with 17 oven functions including Aero™ Pastry and Roast, Air Fry and Dehydrate
- Non-tip, full extension sliding shelves for safe removal of hot dishes
- Accessories include food probe, smokeless grill tray, and more

DIMENSIONS

Height	27 3/16 "
Width	29 15/16 "
Depth	23 15/16 "

FEATURES & BENEFITS

- Cook With Confidence**

Our touchscreen interface provides an intuitive guided cooking experience that helps deliver perfect results, whether you've been cooking all your life or just starting out. Cook with a favorite method, a hero ingredient, or a go-to cooking function or recipe.
- Generous Capacity**

With its 4.1 cu ft total capacity, you can create several perfectly cooked dishes at once using multiple shelves.
- Multi-Function Flexibility**

The cooking functions have each been tailored, tested, tweaked and perfected to ensure that no matter what you're cooking, you've got the right heat to match. Purchase our Wireless Temperature Sensor accessory and precisely monitor cooking in real time (accessory sold separately).

- Exceptional Performance**

AeroTech circulates heat evenly for a consistent temperature throughout the cavity, helping you ensure perfect results even when cooking on multiple shelves.
- Self-Cleaning**

Our self-clean technology breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. The enamel coated side racks don't need to be removed when using this function.

Design Freedom

Available in an elegant black or a stylish black with stainless steel, this oven is designed to fit seamlessly into your kitchen. Premium materials and detailing to support a cohesive, considered kitchen design.

				Where applicable:	

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
