Depth	**11 "**

FEATURES & BENEFITS

Quiet And Effective

This vent hood features four fan speeds providing powerful extraction to quickly remove odors and steam. As odors can linger in the kitchen well after cooking is finished, the timer keeps the vent hood working for up to 15 minutes before automatically turning off.

Simple Controls

This Fisher & Paykel vent hood features a sleek and easy-to-use soft-touch control panel. Lights provide superb illumination over the cooking surface.

Easy Cleaning

The stainless steel finish is easily wiped clean. Multi-layered, dishwasher safe filters trap grease effectively and can easily be removed for cleaning.

Complementary Design

This range hood can be built into your cabinetry for a seamless look. Its stainless steel finish is designed to match the rest of Fisher & Paykel's kitchen appliance family.

SPECIFICATIONS

Accessories (included)

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
