## DIMENSIONS

| | |
|---|---|
| Height | 1790 mm |
| Width | 790 mm |
| Depth | 692 mm |

## FEATURES & BENEFITS

### ActiveSmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It's technology which understands how you use your refrigerator and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

### Clever Energy

With an exceptional 4.5 star energy rating, this refrigerator adapts to daily use by cooling and defrosting only when necessary. This means it uses the energy it needs without compromising on food care.

### Slimline Design

With a sleek, slimline design and recessed handles, this quad door refrigerator is perfect for compact kitchens. Choose from natural stainless steel or elegant black stainless steel to suit your kitchen aesthetic.

### Humidity Control

The humidity bin in this refrigerator is designed to help extend the freshness of your produce. It creates a unique microclimate within the bin, compared to the main refrigerator compartment, ensuring your fruits and vegetables stay fresher for longer.

### Design Quality

Our refrigerators are designed and built using robust, quality materials, with stainless steel exteriors and solid glass for the interior shelving.

### Slimline Water Dispenser And Ice Maker

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water, while fresh ice is always available for you in a dedicated freezer bin. Use the boost feature during busy times to increase ice production.

## SPECIFICATIONS

### Accessories (sold separately)

| | |
|---|---|
| Water filter replacement | 868686 - FWC5 |

### Capacity

| | |
|---|---|
| Volume | 498 L |
| Volume freezer | 174 L |
| Volume refrigerator | 324 L |

### Connected Features

| | |
|---|---|
| Alerts and notifications | • |
| Education and onboarding | • |
| Remote operation | • |

| | |
|---|---|
| Software updates | • |

### Consumption

| | |
|---|---|
| Energy rating | 4.5 star |
| Energy usage | 340kWh/year |
| In-use energy carbon emissions estimate | 32.3kgCO2e/year |

### Controls

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
