

60cm Series 7 Contemporary Pyrolytic Oven, 9 Function

Contemporary

With generous capacity and beautiful black Contemporary styling, this built-in oven will complement your kitchen design perfectly.

- 85L total capacity, with 9 oven functions including Pizza Bake and Roast
- Moisture level control with ActiveVent™ technology
- Pyrolytic self-cleaning function breaks down food residue for an easy clean

DIMENSIONS

Height	598 mm
Width	596 mm
Depth	565 mm

FEATURES & BENEFITS

Multi-Function Flexibility

Nine functions including Roast, Pizza Bake and Fan Grill mean no matter what you're cooking, you've got the right heat to match.

BEAUTY OF CHOICE

With the choice of stylish stainless steel or elegant black, you can choose the finish that complements your kitchen design best.

Generous capacity

With a generous-sized internal cavity, you can create several dishes at once using multiple shelves.

Activevent Technology

With ActiveVent technology for optimised moisture levels and AeroTech™ for even heat distribution, you'll get perfect results even when using multiple shelves.

Simple Cleaning

Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

Safe And Sound

The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside - protecting both your hands and the surrounding cabinetry.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
