

80cm Series 7 4 Zone Induction Cooktop, 2 SmartZones

Minimal

Featuring powerful induction technology and two SmartZones, this cooktop delivers weekday to weekend versatility. Cook in each zone individually or link them to create a larger surface, ideal for everything from delicate sauces to perfectly seared steaks.

- Choose from black or grey finishes to complement your kitchen design
- Immediate heat response with precise temperature control for perfect results
- Pause and Recall let you resume cooking with your settings restored

- Touch&Slide controls make it easy to adjust each zone or link zones into two large SmartZones

DIMENSIONS

Height	54 mm
Width	800 mm
Depth	530 mm

FEATURES & BENEFITS

Complementary design

Available in grey or black finishes, this cooktop complements your kitchen and pairs beautifully with Fisher & Paykel ovens for a cohesive look. Choose a flush fit for a seamless flow between surfaces or a raised installation to create a refined focal point.

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. © Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
