

# 90cm Series 7 Contemporary Oven, 9 Function

Contemporary

With a large capacity and beautiful contemporary styling, this built-in oven will complement your kitchen design perfectly.

- Generous 100L total capacity, ideal for multi-shelf cooking
- Nine oven functions including Pastry Bake, Roast and Warm
- Built-in professional grade rotisserie

## DIMENSIONS

|        |        |
|--------|--------|
| Height | 478 mm |
| Width  | 895 mm |

Depth

564 mm

This built-in oven has catalytic liners that break down oil and fat splashes during cooking so you don't have to spend hours cleaning.

### Safe and Sound

The CoolTouch door, with triple glazing and a cooling system, is safe to touch from the outside, protecting your hands and the surrounding cabinetry. Getting large dishes in and out of the oven is a breeze, thanks to the full telescopic sliding shelves that stay perfectly steady—even when pulled all the way out.

### Even cooking

Our ovens feature AeroTech™, a technology that circulates heat evenly, ideal for multi-shelf cooking. The professional-quality rotisserie roasts meat to succulent perfection, and a powerful grill ensures even and quick browning results.

### Complementary design

With their premium handle styling and sleek black finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

## FEATURES & BENEFITS

### Cooking flexibility

This built-in oven has nine functions with pre-set temperatures, including Bake, Pastry Bake and Fan Forced, allowing you to use a variety of cooking styles

### Optimal Performance

Oven functions are pre-set with a simple touch of a dial. Enhanced by brilliant lighting and a large viewing window, the need to open the oven door is minimised, ensuring perfect cooking results while maintaining the oven's internal temperature.

### Generous Capacity

Designed for multi-shelf cooking, this built-in oven provides a 100L total capacity. The wide cavity allows for both side-by-side and multi-shelf cooking.

### Easy Cleaning

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
