

48" Series 7 Professional 6 Burner with Griddle Gas Range, Natural Gas

Professional

With Professional styling, this large range has six burners delivering powerful high heat, a griddle and two gas ovens.

- Griddle with burners that deliver up to 23,500 BTU heat per burner, for seriously fast boiling
- Expansive 7.7 cu ft total oven capacity across two oven cavities
- Non-tip full-extension shelves in main cavity for safe removal of hot dishes
- Made from quality materials and real stainless steel

DIMENSIONS

Height	35 3/4 - 36 3/4 "
Width	47 7/8 "
Depth	29 1/8 "

FEATURES & BENEFITS

Generous Capacity
Featuring a generous total capacity of 7.7 cu ft, with enough room to fit a 32 lb turkey. The griddle plate allows you to cook several foods at once.

Cooktop Power
Sealed Dual Flow Burners™ deliver cooktop power up to 23,500 BTU for seriously fast boiling right down to a precise 140°F full surface simmer with the gentlest of flames.

Cooking Flexibility
The cooktop is designed for easy access to any burner with grates you can smoothly slide pots across. The oven is large enough to hold full size baking sheets.

Design Quality
This range has craftsmanship in every detail, with real stainless steel, cast-iron trivets, and titanium coated dials. Each cavity features incandescent lights and full extension telescopic racks. From the robust legs to the powerful legs to the powerful cooktop, the Range is built to last.

Easy To Clean
Cleaning up spills is effortless with the continuous, porcelain basepan. Your cooktop simply needs a quick wipe to keep it looking good as new.

Total Control
Precise control across high and low settings is delivered through the halo-illuminated cooktop dials.

SPECIFICATIONS

Burner ratings

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
