

Wall Rangehood, 90cm, Slide-Out

Series 3 | Contemporary

White

Ideal for compact kitchens, sliding out for use when you need quiet, efficient extraction above your cooktop.

- With two fan speeds, select the ideal extraction rate for your cooking
- Slides out for use when you need it, with maximum air movement of 340m³/hr
- Dishwasher safe filters that are easy to remove and clean

DIMENSIONS

Height	181-185mm
Width	898mm
Depth	280-460mm

FEATURES & BENEFITS

Effective Extraction

This rangehood requires external ductions through the top. Ducted rangehoods such as this are more effective at removing steam, grease and odours.

Simple to use

Simply flick a switch to turn this rangehood on or off, or to change between the two extraction speeds. A separate switch controls the bright halogen lights to provide illumination over your cooking surface.

Easy Cleaning

Two filters, consisting of layers of aluminium mesh, effectively trap grease particles during extraction. They are easy to remove and dishwasher safe, or can be cleaned by hand in hot soapy water.

Seamless Integration

With white glass front panel handles and a brushed stainless steel finish, this rangehood is designed to match the rest of the Fisher & Paykel's kitchen appliance family.

SPECIFICATIONS

Accessories

40mm Stainless handle	792406 (included installed)
Aluminium filter	792392

Accessories (sold separately)

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
