

# Series 7 Integrated Dishwasher

Integrated

Designed to fit seamlessly into kitchens requiring ADA heights, with flexible loading and quiet performance. Auto door open releases steam at the end of the cycle, while AirCurtain technology helps protect surrounding cabinetry.

- Intuitive, quiet cycles that adapt to your routine for reliable performance every time
- Recognized as Energy Star Most Efficient for efficient performance
- Pitch-adjustable racks fit 12 7/16" plates and make loading larger items easier
- SmartHQ™ app connectivity for remote control and cycle updates

## DIMENSIONS

Height	32 1/4 - 34 5/8 "
Width	23 1/2 "
Depth	22 5/8 "

## FEATURES & BENEFITS

### Seamless integration

Designed for seamless integration, this dishwasher fits flush with surrounding cabinetry, including installations requiring ADA-compliant heights. Customize with a front panel and handle to match the kitchen space, supporting flexible design choices. With quiet 44dBA performance and simple installation, it's designed to enhance both the kitchen aesthetic and the everyday experience.

### Intelligent care for every load

Seven wash programs, including Auto, adapt to the needs of each load for consistently effortless results. The Sanitize modifier provides extra protection by eliminating 99.9% of bacteria\*, giving greater confidence when caring for everyday items. \*Certified to NSF/ANSI Standard 184

### Effortless drying with AirCurtain

At the end of the cycle, the door automatically opens to release excess steam, while innovative AirCurtain technology creates a protective barrier, helping to safeguard surrounding cabinetry over time.

### Flexibility for everyday use

Accommodates 16 place settings with flexible solutions including a third rack, adjustable middle rack, and a combination of pitch-adjustable and foldable tines. An external indicator light signals cycle completion, so you know exactly when it's ready to unload.

### Designed to minimize impact

Recognized as Energy Star Most Efficient, this dishwasher is designed to help reduce water and energy use by minimizing resource consumption. It supports a lower household footprint while delivering consistent, high performance.

### Connected for everyday ease

Introducing the SmartHQ™ App - Now you're in control, wherever and whenever. Get the most out of your Wi-Fi enabled appliance with Smart HQ making it easy to connect, control and monitor your smart dishwasher anywhere. You can conveniently access the latest tips, remote status notifications and more.

### Easy installation

Designed with ease of installation in mind, this dishwasher features simple panel alignment for flush fit. Accessory panels and handles support a cohesive kitchen finish.

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
