FEATURES & BENEFITS

Cooking flexibility

This built-in oven has nine functions with pre-set temperatures, including Bake, Pastry Bake and Fan Forced, allowing you to use a variety of cooking styles.

PRE-SET OVEN FUNCTIONS

Oven functions are pre-set at the touch of a dial and brilliant lighting combined with a large viewing window reduce the need to open the oven door, providing perfect cooking results and improving energy efficiency.

Sized to suit

Designed for multi-shelf cooking, this is one of the largest built-in ovens on the market providing 100L total capacity. The wide cavity allows for both side by side and multi-shelf cooking.

Safe and sound

The CoolTouch door with triple glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry. Getting large dishes in and out of the oven is a breeze with full telescopic sliding shelves that stay perfectly steady – even when pulled all the way out.

Even cooking

Our built-in ovens feature AeroTech – a technology that circulates heat evenly, ideal for multi-shelf cooking. The professional-quality rotisserie roasts meat to succulent perfection and a powerful grill gives even and quick browning results.

Complementary design

With their premium handle styling and stainless steel finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.
