

# 60cm Series 9 Minimal Compact Combi-Microwave Oven

Minimal

The speed of microwave cooking with the versatility of convection oven technology in a compact companion model, for perfect pairing.

- Compact size, designed to fit flush with cabinetry
- Generous 49L capacity, with four shelf positions
- A Wired Temperature Sensor precisely monitors cooking in real time
- Guided touchscreen cooking makes it simple to navigate cooking processes

## DIMENSIONS

|        |        |
|--------|--------|
| Height | 458 mm |
| Width  | 596 mm |
| Depth  | 565 mm |

## FEATURES & BENEFITS

- Cooking Flexibility**  
Choose from 22 functions, including four microwave-only functions, 14 traditional oven functions, and four combination functions, giving you the best microwave and convection oven technology.
- Cook With Confidence**  
The 5" screen provides an intuitive guided cooking experience that helps to deliver perfect results, whether you've been cooking all your life or are just starting out.
- Sized To Suit**

A compact 60cm width means this microwave oven can be placed almost anywhere – all companion products can be installed at a convenient height to suit your kitchen design and preference.

**Complementary Design**  
With a matte black glass finish, this Minimal style oven blends seamlessly, enhancing your kitchen design without dominating it. It's understated and elegant, whether on its own or part of a matching appliance set.

**Multi-Function Flexibility**  
Each function has been tailored and tested to ensure perfect defrosting, heating and cooking. A Wired Temperature Sensor precisely monitors cooking in real time, giving you complete control.

**Safe And Sound**  
The CoolTouch door is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
