60cm Series 7 Integrated Refrigerator Freezer

Series 7 | Integrated

Panel Ready | Right Hinge

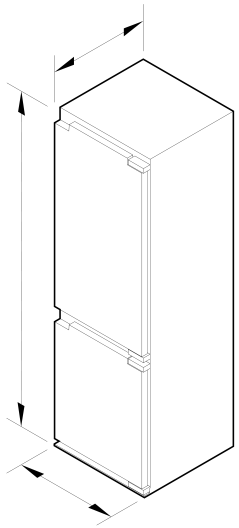

Perfect for smaller kitchens or multi-residential spaces, this compact refrigerator integrates seamlessly behind your cabinetry. It offers generous storage, a Variable Temperature Zone for precise food care, and Wi-Fi connectivity for helpful alerts via the SmartHQ™ app.

- Seamlessly integrates into kitchen cabinetry with a flush, panel-ready finish
- Designed to optimise energy performance and efficiency
- Variable Temperature Zone drawer creates the ideal environment for different food types
- ActiveSmart™ Foodcare help keep food fresher for longer by maintaining even temperatures

DIMENSIONS

Height	1772 mm
Width	550 mm
Depth	550 mm

FEATURES & BENEFITS

Seamless integration

This compact refrigerator is designed to sit flush within standard joinery, with a panel-ready front for a cohesive kitchen finish. Sized to suit a 60cm cavity, it’s an ideal choice for multi-residential developments or any space where seamless integration matters.

Clever energy

With highly efficient vacuum insulation reducing heat transfer, this fridge uses only the energy it needs while keeping your food fresher for longer.

Simple, universal fit

Installation is fast and flexible, with a reversible hinge and a design that suits common cabinetry systems, including European modular kitchens.

Variable Temperature Drawer

The Variable Temperature Zone drawer lets you adjust settings to suit different food types. Choose from Fruit & Veg, Beverage, or Meat & Seafood modes to help keep food fresher for longer.

ActiveSmart™ Foodcare

ActiveSmart™ Foodcare learns how you live and adjusts airflow, temperature and humidity inside the refrigerator to create a stable environment that helps keep food fresher for longer.

Fast freezing

Fast Freeze rapidly drops the freezer temperature to –24°C for up to 12 hours to help lock in the texture, taste, and nutrients of fresh food. The frost-free design also means you’ll never need to manually defrost the freezer compartment.

Design quality

The premium design includes a backlit LED light panel, strong glass shelving, and quality hinges designed for everyday use.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
