

Series 9, Integrated Tall Single DishDrawer Dishwasher

Integrated

Designed to fit your full-sized dinner plates, this DishDrawer™ can be placed anywhere in your kitchen, integrating seamlessly.

- Knock to pause function is perfect if you miss a dish
- Six wash programs, as well as additional Quick wash, Sanitize and Extra Dry options
- Customize with your own kitchen cabinetry or purchase our stainless steel door panel accessory
- American Disabilities Act (ADA) compliant, this can be installed at an accessible height for loading and unloading

DIMENSIONS

Height	17 7/8 "
Width	23 9/16 "
Depth	21 3/4 "

FEATURES & BENEFITS

SEAMLESS INTEGRATION

Slide your DishDrawer™ Dishwasher into an existing kitchen space or integrate into kitchen cabinetry, for a seamless look whilst delivering superior dish care.

Ease of use

DishDrawer™ Dishwashers are as easy to open and close as kitchen drawers and can be conveniently positioned at bench height for ease of loading and minimal bending. Flexible racking allows you to make adjustments to fit in a variety of dishes.

Quick, Sanitize and Extra Dry options

The Quick wash modifier delivers a faster wash while maintaining performance. The Sanitize option provides extra protection killing 99.9% of bacteria in the final rinse. The Extra Dry setting is perfect for plastic dishes.

Knock to pause

Instead of needing a remote control, these DishDrawer™ Dishwashers have a knock to pause function. A knock on the front panel will pause the dishwasher which can be re-started again by using the start/play button.

Quiet performer

Running at a very low decibel rate, these DishDrawer™ Dishwashers do their job without making a fuss. The combination of intelligent technology and simple mechanics means greater reliability and excellent wash performance.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
