

# 8.5kg + 5kg Series 7 Front Loader Washer Dryer Combi

Combination

A complete laundry solution for when you need to maximise space while washing and drying your clothes with superior fabric care.

- With 10 continuous wash and dry cycles including Delicate and Quick wash, 10 wash only cycles and 9 dry only cycles
- 8.5kg wash load and 5kg dry load
- Easy installation with no venting required
- Wash and dry an average load in under three hours

## DIMENSIONS

Height 850 mm

Width 600 mm  
Depth 645 mm

## FEATURES & BENEFITS

### Two In One Convenience

This 60cm model fits into a standard space and does the work of a washer and dryer combined – offering a complete laundry solution.

### Complete Fabric Care

Designed to care for every type of fabric with specialised cycles. The option of low-temperature drying helps prevent fabric damage, and a reverse-tumble drying action minimises tangling.

### Add A Garment

Add a Garment allows you to pause your wash cycle, add or remove an item, then carry on washing.

### Hot Spin Technology

Hot spin technology reduces moisture content to speed up the drying process – saving time and energy.

### Quick Cycle Times

Wash and dry an average load in three hours or less.

### Easy Installation

All that's required is a cold water inlet, a drain and power – no venting required.

## SPECIFICATIONS

### Capacity

Capacity Wash (8.5kg), + Dry (5kg)

### Consumption

Water consumption per cycle 7.5L/kg  
Water rating 3 ticks

### Dry Cycles

- Cottons
- Dryness levels 3
- Everyday
- Heavy
- Synthetics
- Towels

### Features

- Add a garment (immediate door opening)
- Anti-fungal door gasket
- Auto out of balance correction
- Controlled cold
- Delay start
- Detergent dispenser Manual

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
