- Wi-Fi capability and a SmartHQ™ app for remote control and notifications

DIMENSIONS

Height 17 13/16 "

Width 23 9/16 "
Depth 22 9/16 "

FEATURES & BENEFITS

- Ease Of Use**
DishDrawer™ Dishwashers are beautiful to use with soft-close drawers, and can be conveniently positioned at bench height for ease of loading and minimal bending. Flexible racking includes height-adjustable cup racks and wine glass supports.
- Complementary Design**
With distinctive, bold styling, this DishDrawer™ Dishwasher is designed to match the Fisher & Paykel Professional style family of appliances.

Flexible Wash Options
Eight wash programs including Auto, 60min and Glassware, while modifiers such as Sanitize, Dry+ and Quiet provide added wash flexibility. The Quiet wash modifier reduces the noise on some cycles while maintaining performance – perfect for late night washing.

Design Quality
Every detail has been carefully crafted using quality materials, from the easy-to-clean stainless steel interior to the spray arm sensor that detects jams for increased wash confidence.

Quiet Performer
Running at a low decibel rating of 43dBA, these DishDrawer™ Dishwashers do their job without making a fuss. The combination of intelligent technology and simple mechanics means greater reliability and excellent wash performance.

Efficient Performance
Our Energy Star rated DishDrawer™ Dishwashers use the energy they need without compromising on wash performance.

SPECIFICATIONS

Accessories (included)

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
