

# 60cm Series 9 Minimal Handleless Compact Combi- Microwave Oven

Minimal

Combine microwave speed with convection versatility in a compact model. Its sleek handleless design ensures a perfect pairing with your kitchen aesthetic.

- Handleless oven design ensures smooth, uninterrupted lines in your kitchen cabinetry for a cohesive look
- Combi microwave versatility for quick, even heating across a variety of dishes, ensuring perfect interior cooking with crisp exteriors
- Generous 49L capacity, with four shelf positions
- A Wired Temperature Sensor precisely monitors cooking in real time

## DIMENSIONS

|        |        |
|--------|--------|
| Height | 458 mm |
| Width  | 596 mm |
| Depth  | 565 mm |

## FEATURES & BENEFITS

**Handleless Design**  
Effortlessly open and close your oven with a gentle press of a button, ensuring convenience and smooth operation in the kitchen. Moving away from traditional oven doors, this model is an ideal match for kitchens with a continuous, handle-free design, ensuring a seamless flow across the cabinetry.

**Cooking Flexibility**  
Select from 22 functions: four dedicated to microwave-only, 14 designed for traditional oven cooking, and four combination functions that harness the best of both microwave and convection oven technology.

**Cook With Confidence**  
The 5" screen provides an intuitive guided cooking experience that helps to deliver perfect results, whether you've been cooking all your life or are just starting out.

**Sized To Suit**  
The compact height of this microwave oven allows for versatile placement. All our companion products can be installed at a convenient height to suit your kitchen design and preference.

**Safe And Sound**  
The CoolTouch door is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

**Complementary Design**  
With a sleek black glass finish, this Minimal style oven blends seamlessly, enhancing your kitchen design without dominating it. It's understated and elegant, whether on its own or as part of a matching appliance set.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
