

60cm Series 9 Contemporary Coffee Maker

Contemporary

With timeless and expressive design, you can enjoy barista-style coffee at home. Create perfectly crafted coffee from Latte to Macchiato.

- Dial-in your preferred grind, temperature, milk level and strength settings, then save up to six unique profiles
- Programmable timer turns on the Coffee Maker at the ideal time each day
- Intuitive touch display brews a perfect cup of coffee at the touch of a button
- Designed to match our Contemporary style appliances, for the ultimate kitchen solution

DIMENSIONS

Height	458 mm
Width	596 mm
Depth	480 mm

FEATURES & BENEFITS

EVERY POUR PERSONALISED

Create barista-quality coffee at home, with 13 options from Flat White to Macchiato. Tailor each cup to your taste, adjusting grind size, milk level, temperature and strength, then save up to six unique profiles so every pour is crafted to perfection — just the way you like it.

READY WHEN YOU ARE

Wake up to the aroma of freshly brewed coffee, perfectly timed to your morning routine. With programmable settings, your machine can heat, grind and pour automatically at your chosen time, so your coffee is ready just as you are.

EFFORTLESS CLEANING

Enjoy effortless maintenance with a self-cleaning function that keeps your machine pristine. The coffee grounds container and drip tray are simple to remove and empty, making it easy to care for your machine and enjoy every cup at its best.

ENGINEERED FOR EXCEPTIONAL COFFEE

Enjoy expertly crafted coffee at the touch of a button, powered by precision engineering. A stainless steel conical burr grinder with 13 coarseness settings ensures consistent flavour, while 15-bar pump pressure delivers a rich, aromatic crema. The generous 2.4L water tank means fewer refills, for uninterrupted enjoyment.

DESIGNED TO MATCH

Designed to complement our Contemporary style family of appliances, this Coffee Maker features a brushed silver finish with refined detailing. Able to be seamlessly built in almost anywhere, our companion products are crafted to align beautifully and install at the height that best suits your kitchen and lifestyle.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
