Series 7 Contemporary Tall Built-in Dishwasher

Series 7 | Contemporary

Stainless Steel

Designed to adapt to every load, this tall dishwasher combines Triple Wash System, Auto Cycle sensing, AutoDry and Air Curtain technology to deliver precise cleaning and drying performance. Independent spray arms and flexible loading features provide exceptional care for everything from delicate glassware to heavily soiled cookware.

- Flexible racking and Triple Wash System for perfect results in every wash
- AutoDry automatically opens the door and a fan circulates air at the end of a cycle for better drying
- Air Curtain channels steam away to protect surrounding cabinetry
- Connect via Wi-Fi and the SmartHQ™ app to access energy usage insights and guidance
- For added peace of mind, Aqua Stop automatically shuts off the water if a leak is detected

DIMENSIONS

Height	33 3/4 - 36 1/8 "
Width	23 1/2 "
Depth	22 13/16 "

FEATURES & BENEFITS

80 YEARS OF CLEAN DISHES

In our distinct and timeless Contemporary style, this dishwasher reflects 80 years of dishwashing expertise. A proud handle creates a confident visual statement to complement a range of interiors, while the Auto Cycle draws on decades of research into the science of clean dishes, automatically adjusting wash conditions for consistent cleaning performance and efficient use of resources.

ENGINEERED FOR LIFE

Trust is earned over time through consistent results. That's why our team of scientists test wash performance using over 100,000 pieces of cutlery and crockery each year. Carefully measuring soil removal, water use and energy use, we continuously refine our cycles to deliver proven consistency, wash after wash, transforming routine into ritual.

DESIGNED TO ADAPT

No two days in the kitchen are the same, so your dishwasher needs to adapt. With increased usable height, there's more flexibility to fit larger cookware and taller dishes up to 12 3/4" with ease. A flexible cutlery tray, height-adjustable middle basket, plus cup racks and pitch-adjustable foldable tines let you tailor the interior to each load. Secure smaller items easily and create a layout that works for everything from everyday meals to larger clean-ups.

TRIPLE WASH SYSTEM

The rule of thirds is a principle of balance in design, where three elements work together to create harmony. Inspired by this, our Triple Wash System brings together three racks, three independent spray arms and three-stage filtration to work harmoniously inside the dishwasher. With balanced coverage across every level, the result is consistent cleaning performance in every load.

DESIGNED FOR BETTER DRYING

Clean dishes are the result of more than just the wash, with drying a crucial final step in the process. AutoDry automatically opens the door at the end of the cycle, releasing steam to support more effective drying with minimal energy use. Air Curtain channels steam away from surrounding cabinetry, delivering dishes that are clean, dry, and ready to be put away.

BALANCE IN EVERY CYCLE

Not every load demands the same approach. From everyday dishes to heavily soiled cookware, our cycles and modifiers are designed to deliver the right level of care for each wash. Half Load optimises smaller washes, Sanitize kills 99.9% of bacteria in the final rinse, and Dry+ improves drying performance on plastics for reliable results across every load.

EFFICIENT WATER AND ENERGY USE

Designed to help reduce consumption rated as Energy Star Most Efficient, the Eco Cycle balances time and energy to deliver a thorough clean while using up to 45% less energy compared to the Medium cycle. The quiet, energy efficient cycle fits perfectly into evening routines, so you wake to clean dishes and a lighter environmental footprint.

CONNECTED ENERGY INSIGHTS

Designed to work beyond the kitchen, this dishwasher offers energy insights through Wi-Fi and the SmartHQ™ app. Understand the estimated energy usage of each cycle before it begins, track consumption over time with daily, weekly or monthly energy insights, and discover simple ways to reduce energy use through helpful tips and guidance. Providing greater visibility into everyday energy consumption, it helps you make more informed decisions about how and when you run your dishwasher.

SPECIFICATIONS

Accessories (included)

Cutlery basket	•
Kickstrip	true

Capacity and loading

Accommodates round plates up to (lower basket)	12 3/4"
Accommodates round plates up to (top basket)	9 13/16"
Adjustable height, foldable cupracks	•
Easy lift adjustable upper basket	•
Fold down tines	•
Full width cutlery/utensil tray	•
Pitch adjustable tines	•
Place settings	16
Wine glass supports	•

Connected Features

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
