Width	23 9/16"
Depth	22 9/16"

FEATURES & BENEFITS

- #### MULTIPLE WASH TYPES
- Wash modifiers allow you to use specialized cycle settings. Quick delivers faster with no performance reduction, Sanitize provides extra protection from bacteria, and Extra Dry is perfect for plastic dishes.
- #### EASE OF USE
- The DishDrawer™ Dishwasher features smooth open and close action, and flexible racking allows adjustment for dishes of all shapes and sizes. The taller top drawer provides extra space for

large dishes.

- #### BEAUTY OF CHOICE
- As much a high performance appliance as a design component, the black DishDrawer™ Dishwasher brings a touch of sophistication to your kitchen, whether on its own or part of a matching kitchen appliance set.
- #### INDEPENDENT WASHING
- With the ability to use both drawers independently and select different wash programs, the DishDrawer™ Dishwasher can wash everything from fine glass and crystal to heavily soiled pots and pans.
- #### TRUE HALF LOAD
- Each drawer holds a true half load for small, fast dish washing that won't waste water. Both drawers operate independently so different wash cycles can operate simultaneously to accommodate varying loads.
- #### QUIET PERFORMER
- The DishDrawer™ Dishwasher does its job without making a fuss - running at a very low decibel rating, they produce little in the way of noise.

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
