

Freestanding Range Cooker, Induction, 90cm, 5 Zones with SmartZone, Self-cleaning

Series 9 | Contemporary

Stainless Steel

- Contemporary styling with a large capacity oven, this is the perfect choice for those who love to cook.
- Five cooking zones that can be paired to form SmartZones
 - Convection oven with 140L total capacity, and nine functions plus Rotisserie
 - Non-tip full-extension shelves for safe removal of hot dishes
 - High-temperature self-cleaning oven cycle breaks down food residue for an easy clean

DIMENSIONS

Height	898 - 946mm
Width	897mm
Depth	600mm

FEATURES & BENEFITS

- Multi-Shelf Cooking**
Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the bottom shelf turn out just as perfectly as food cooked on the top shelf.
- Quality And Durability**
Every detail has been carefully crafted. The solid, perfectly balanced soft-close door and chromed cast zinc dials add up to an exceptional, premium range cooker.
- POWER AND CONTROL**
Instant and immediate control from the highest to the gentlest heat. The finely tuned hob controls let you sear, stir fry or simmer a delicate sauce to perfection.

- Easy Cleaning**
Your hob simply needs a quick wipe to keep it looking good as new. The pyrolytic self-clean oven cycle breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.
- Complementary Design**
With clean lines and complementary tonal contrasts, the timeless aesthetic of this Contemporary style range cooker supports a considered kitchen design.

- Large Capacity Oven**
The generous 140L total capacity oven gives you plenty of space to cook multiple dishes at once.

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
