

Auxiliary Modular Induction Cooktop, 39cm, 2 Zones with SmartZone

Series 11 | Minimal

Grey

Create the ultimate culinary solution. Combining precise induction technology with innovative design, this compact auxiliary cooktop is designed to pair with a Primary Modular Induction Cooktop.

- Part of our unique modular cooking solution. Pair with a primary cooktop for a unified cooking experience
- Choose from a grey or black glass finish to suit your kitchen design
- Achieve precision cooking with accurate temperature control using induction technology

- Enjoy the flexibility of using larger pans by linking cook zones to create a spacious SmartZone

DIMENSIONS

Height	62mm
Width	385mm
Depth	530mm

FEATURES & BENEFITS

Modular design freedom

Achieve complete design freedom with our range of modular cooktops and downdraft ventilation. Seamlessly integrate cooktops of various sizes into your cooking space, tailoring the setup to suit your patterns of use. This design flexibility allows you to optimise space and flow, creating a kitchen that perfectly

aligns with the way you live, cook and entertain.

Complementary design

Available in both grey and black finishes, our Minimal style modular cooktops effortlessly complement your kitchen's aesthetics. Designed to match our touchscreen ovens in both style and functionality, they offer a unified cooking experience. The flush installation ensures seamless integration into modern kitchen spaces.

Mastery of temperature

Fisher & Paykel induction cooktops are designed for precision, delivering mastery of temperature. This model is exclusively controlled from the primary modular cooktop's responsive touchscreen, ensuring a streamlined kitchen space. Effortlessly transition from a high heat to a gentle simmer, for perfect results when caramelising, stir frying, or simmering.

Superior efficiency

Less heat is wasted during induction cooking because only the cookware is heated, not the cooktop surface. This makes induction cooking more energy-efficient than electric or gas cooktops.

Flexible cooking area

SmartZone links two cooking zones and controls them as one, giving you the flexibility to use large pans and griddles and easily handle bigger food items, such as a whole fish. SmartZone streamlines the cooking process and allows you to explore different culinary techniques with ease.

Connected Home

Stay connected with the SmartHQ™ app, and easily monitor the status of active cookzones, such as power level, timer settings, and paired wireless temperature sensor readings, directly from your smartphone. The app provides real-time alerts, including timer notifications and temperature milestones, ensuring you're always informed of your cooking progress.

Easy to clean

Our induction cooktops feature a single glass cooking surface, for effortless cleaning. The surface around your cookware

remains cool as you cook, preventing baked-on spills and ensuring a quick wipe-down.
