| Width | 47 7/8 " |
| Depth | 28 " |

FEATURES & BENEFITS

Cooktop Power

Sealed Dual Flow Burners™ deliver rangetop power up to 19,000 BTU for seriously fast boiling right down to a precise 140°F full surface simmer with the gentlest of flames.

Precise Control

From the highest to the lowest temperatures you get total control with halo-illuminated rangetop dials. A precise full surface simmer is delivered across all burners.

Cooking Flexibility

The continuous surface grates are designed for pots and pans to move safely across the rangetop. The deep-platform style grates provide full coverage so heat goes directly onto the pot, for a faster boil.

Easy To Clean

These rangetops are easy to clean with sealed burners and a continuous, porcelain basepan.

Information At A Glance

LED halo control dials provide information at a glance and assist in alerting you if any burners are accidentally left on.

Design Quality

This rangetop is built to last with craftsmanship in every detail, featuring real stainless steel, cast-iron trivets, and titanium coated dials.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
