

# Series 5, Contemporary Dishwasher

Series 5 | Contemporary

Stainless Steel

Designed to match the Contemporary family of appliances, this dishwasher offers multiple wash options and flexible loading.

- Seven wash programs from Heavy to Light, including Auto, 60min and Eco
- Dry+, Sanitise, Half Load and Intensive modifiers provide extra wash options
- Flexible freestanding installation anywhere in your kitchen
- Auto program senses the optimal wash cycle for your dishes

## DIMENSIONS

Height	850 - 895 mm
Width	597 mm
Depth	600 mm

## FEATURES & BENEFITS

### Considered Design

Designed to match our Contemporary style family of products, this freestanding dishwasher has a sleek stainless steel finish with a front-of-door control panel for intuitive usability.

### A Reliable Clean

This dishwasher offers seven wash programs including Auto, which automatically senses the optimal wash settings for your dishes. The three-stage filtration system delivers a superior clean, while the rinse aid indicator reminds you to top up for beautifully clean dishes.

### Customise Your Wash

The Half Load modifier is perfect for washing a partial load, for faster turnaround of dishes. Sanitise provides extra protection, killing 99.9% of bacteria\* in the final rinse, while the Dry+ modifier is great for plastic dishes.

\*Certified to NSF/ANSI Standard 184

### Efficient Performance

With a 5 star water rating, this dishwasher delivers a powerful wash. Use the Eco wash program for optimal water and energy consumption, or choose when the cycle begins with Delay Start.

### Flexible Loading

Designed to fit 15 place settings with ease, adjustable racks help you to load and care for various items - including a height-adjustable upper basket, and foldable cup holders and tines.

## SPECIFICATIONS

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
