695 mm

FEATURES & BENEFITS

ActiveSmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It's the technology that understands how you use your refrigerator and adjusts the temperature, airflow and humidity inside to help keep food fresher for longer.

Easy To Clean

No more dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any finger marks. Spill-safe secure glass shelves easily capture any drips or leaks.

Humidity Control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

Ice maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or, during busy times, boost ice production by up to 30%.

Design quality

Our refrigerators are designed and built using the best quality materials. We use real stainless steel, and solid glass for the interior shelving.

Simple Storage

This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

SPECIFICATIONS

Accessories (sold separately)

Water filter replacement **847200 - FWC3**

Capacity

Total gross capacity **614 L**
Volume **569 L**
Volume freezer **152 L**

Volume refrigerator **417 L**

Connected Features

Cyber security updates until **04 / 03 / 2028**

Consumption

Energy rating **3.5 star**

Energy usage **433kWh/year (IEC 62552-2015), 453kWh/year (AS/NZS 4474.2:2009)**

In-use energy carbon emissions estimate **264.2kgCO2e/year (IEC 62552-2015), 276.4kgCO2e/year (AS/NZS 4474.2:2009)**

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
