FEATURES & BENEFITS

Edge To Edge Extraction
Filters effectively reach edge to edge, which maximises the extraction area.

Full Surface Lighting
The even lighting provides full coverage of the cooktop, illuminating food in its true colour, with no hot or dark spots and no glare or shadows. The dimmable lights have fade in and fade out features.

Easy To Use
This easy to use rangehood operates with fingertip control of LED-illuminated soft touch buttons. Selected models also come with a remote control.

Energy Efficiency
Powered by a brushless DC motor, the Integrated Rangehood operates more efficiently, more reliably and with less noise than units with AC motors.

Effortless Cleaning
The stainless steel filters are easy to remove and are dishwasher safe. A self-contained grease tray within the filters makes them very easy to clean.

Simple Installation
The simple installation process is compatible with most precut cabinetry. The adjustable mounting system can be installed with a 16mm to 38mm cabinetry board.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
