FEATURES & BENEFITS

Seamless Fit
For a minimal look in your kitchen, this insert rangehood integrates seamlessly into cabinetry above your cooktop.

Effective Extraction
Select between three fan speeds to ensure steam, odours and grease are extracted from your kitchen at the rate you need for your cooking.

Easy Cleaning
The aluminium filters are easy to remove and dishwasher-safe, for quick and simple cleaning.

A Joy To Use
Thoughtful design features enhance your cooking experience, with responsive push-button controls and energy-efficient LED lighting to illuminate your cooktop.

Installed To Suit
This rangehood offers ducted or recirculated extraction, so you can choose the solution that best suits your kitchen.

Installation & User Guide (English)

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
